

Mission

Our mission is to improve access to quality health and dental care for low-income uninsured men, women, and children. We accomplish this goal through the coordination of a Volunteer Provider Network, providing health education and by maximizing existing community resources.

Programs

Volunteer Provider Network

We have a network of nearly 200 volunteer doctors, dentists, and other healthcare professionals. These volunteers donated \$807,032 in services through 2,598 appointments to 892 Community Health Connect patients in 2015.

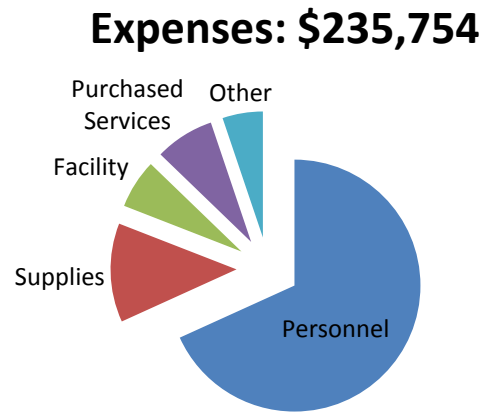

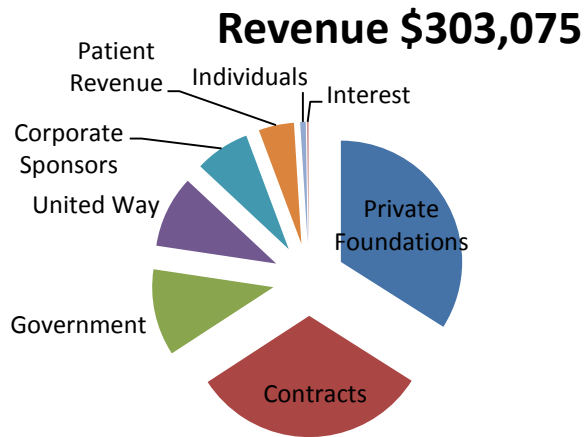

Title I School Oral Health Program

In conjunction with several other agencies and organizations, including Intermountain Healthcare and Mountainlands Applied Technology College, we visit Utah County Title I schools twice a year with an oral health program. We have a fluoride varnish program in addition to providing each student in the school a kit including a toothbrush, toothpaste, and floss. In 2015 we applied 12,314 fluoride varnish applications and provided oral health education and dental kits to nearly 30,000 students. Additionally, we have coordinated \$51,551 in follow-up care for the most critical dental needs identified through this program.

Migrant Seasonal Farmworker Program

We do seasonal outreach to farmworkers living in the south end of Utah County. We provide them with information on health resources, provide health education, and health services. We served over 600 farmworkers in 2016.

Financials

Board of Directors

- Ann Takasaki, Utah Medical Association Alliance
